STAT 471: Homework 0

Nico Melton

Due: September 1, 2021

Contents

Instructions

This very short "homework" is meant to expose you to the R Markdown format. **It will be submitted but not graded.** Before starting this assignment, please complete the setup described in Section 1 of getting-started.pdf. Then, follow the steps described in Section 2 as you work through this homework. Please submit your completed PDF to Gradescope as described in the aforementioned document.

1 Using R as a calculator

Evaluate the sum of 2 and 2 using an R code chunk. Then, comment on the answer you obtained. For those unfamiliar with R, read Section 4.1 here.

```
ans = 2 + 2
print(ans)
```

```
## [1] 4
```

2+2=4
